

# Empower your Business through our Gas Market Knowledge

## **The GB gas market is complex.**

It comprises many intricate rules and processes. There are also many parties and a diverse set of stakeholders to engage with, further complicating operation in this market.

Empower your business to improve your gas market operations through our expert industry knowledge.

## **Target improvements to your gas operations**

Making key targeted improvements to your back-office operations, relationships with key market participants and suppliers, as well as broadening your organisations understanding of the gas supply mechanisms and arrangements, can be an invaluable advantage. Drive efficiency, reduce backlogs, close the gaps in your trading position and establish a base for sustainable growth.

## **Upskill and empower your teams**

Make use of our skilled consultants to kick start business improvements. We can help your business to carve through the complexity and understand the building blocks of an efficient, scalable gas operation. We will lead workshops, deliver critical insight and analysis and share our market expertise, tailored to your business needs, to upskill your teams in recognising key aspects of the GB gas market - empowering them to make measurable improvements.

## **Our expert consultants can support you in understanding:**

- ▶ The difference between Nomination, Allocation and Reconciliation
- ▶ What an Annual Quantity (AQ) is and how it is calculated
- ▶ How demand is estimated
- ▶ The different types of charges, how they are calculated and validated
- ▶ What unidentified gas is and how it is split between industry parties
- ▶ The performance obligations placed on industry parties
- ▶ Read strategies and what the different read rejections mean
- ▶ The market's operation post Project Nexus and future changes
